About Palium

- Palium is focused on providing training to individuals and corporates in areas that are in demand and require skilled people. The company is promoted by professionals who have long years of experience having worked in India and abroad with multinational companies like IBM, PwC amongst others. It is their vision to turn graduating boys and girls into industry ready personnel who are skilled in the right way.
- We realize that corporates are looking for young, bright and knowledgeable people who are industry ready and can take on roles and responsibilities at the earliest opportunity rather than having to go through re-skilling and training.

Trainings Conducted:

Our trainers have conducted numerous trainings in their respective areas. To cite just two examples –

- Raffles Millenium Business School, Bangalore – Oracle Application Appreciation Program
- KLU Business School, Vijayawada – Primavera P6 – Basic and Advanced

Feedback on our Oracle Appreciation program at Raffles Millenium International Business School, Bangalore

Students with the Director of the Institute and the Trainer

Mr.Saurah Pal's Appreciation letter

Jayaraman <jayaraman45@gmail.com>
to Bikram das, me, Vikas, Neelima, Vivek

9:55 AM (23 hours ago)

dear Bikram Das,

We would like to register our appreciation on your efforts of deputing Mr.Saurabh Pal as instructor for Oracle Module at Millennium School of Business,Bangalore.

Some of us had the opportunity to attend his sessions and found that his ability to make the subject easy and understandable to the students was good.

He was also able to give a overview of the context of application of this tool. On the whole, we were Happy with Mr.Saurabh Pal's efforts.

Thanks & Regards,

Warm Regards

R. Jayaraman | B Tech | MBA (HM Ahmedabad)
Corporate Advisor | Educomp Raffles Higher Education Ltd
HM Vibha Towers, 4th Floor, Lasker Hosur Road
No. 63, Bangalore- 560030

Please consider the environment before printing this e-mail ! Thank you!

List of Trainings

Palium provides a host of trainings to graduates from engineering and management background. Our trainings are meant to help students to increase their skills that are sought after by corporate and business houses.

- Oracle E-Business Suite Program
- Primavera
- MS Project
- MS Office Suite
- Java/J2EE
- SQL, PL-SQL, Forms & Reports
- Ethical Hacking
- Animation and Graphics
- Electrical
- Electronics
- Telecom

Oracle E-Business Suite Program

Enterprise Resource Planning (ERP) systems are enterprise-wide information systems that enable enterprise systems to incorporate several stand-alone information systems ranging from marketing, purchasing, sales, distribution, scheduling, human resources, customer relationship, financials, and decision support through a single integrated central database that captures data relating to the various activities and business processes in organizations. Enterprise systems are available as out-of-the-box solutions from several software vendors such as SAP, Oracle Corporation, and Microsoft Corporation amongst others.

This course introduces students to Oracle E-Business Suite as an example of a specific tool for actual ERP implementation. The Oracle E-Business Suite supports a variety of application areas such as financials, human resource functions, supply chain management, customer relationships management, product lifecycle management, procurement, and manufacturing. In association with Oracle we facilitate the learning of enterprise systems by providing the software, curriculum and certificates from Oracle. Students are provided hands-on training on using the Oracle E-Business Suite for a variety of business processes such as order to payment; procure to pay, hire to retire etc. Students thus gain an in-depth understanding of ERP systems enable business processes in organizations with whom they may work in future.

- **Oracle Application EBS Appreciation Program**
- **Oracle Application Financials Program**
- **Oracle Application Supply Chain Program**
- **Oracle Application HRMS Program**
- **Oracle Application CRM Program**

Project Management

Project Managers keep track of large and complex projects through the use of tools like Primavera and MS Project Plan.

- **Training on Project Management – An Introduction**

The objective of this course is to introduce the concepts of Project Management which will help them to work professionally. A foundation on this vital aspect of any project is a must for all professionals.

- **Training on Primavera P6**

Oracle Primavera is a Enterprise Project Portfolio Management (EPPM) solution for project-intensive industries. It offers best-in-class capabilities focused on mission critical PPM requirements of industries like engineering & construction, discrete and process manufacturing, public administration, financial services and others. This training is suitable for students from Engineering stream like Civil, Mechanical and IT

- **Training on Microsoft Project Plain**

Microsoft Project is a project management software program, developed and sold by Microsoft, which is designed to assist a project manager in developing a plan, assigning resources to tasks, tracking progress, managing the budget, and analyzing workloads. The application creates critical path schedules, and critical chain and event chain methodology third-party add-ons also are available. Schedules can be resource leveled, and chains are visualized in a Gantt chart.

Personality Development

As you come towards the end of your student life and prepare to step out into the professional world, it is very important to prepare yourself appropriately to work in the professional sphere.

The following courses will help you to bridge the gaps in your personality.

- Aptitude Tests

The above programs are conducted onsite at your campus.

Electrical

- Electrical remains one of the critical success factors for any industry house. In this area also technology has made a rapid stride which has changed the way many of the equipments are made and used all over.

Trainings

- Testing and Maintenance of Rotary Machines – 40hrs
- Power Systems – Protection – 40hrs
- Power Electronics - 40hrs
- Project Engineering Management & Execution - 40hrs

Electronics

The impact of Electronics in today's world is widespread and has pervaded every aspect of our life. Things now happen much quicker because of modern technology, and it is well known that there is simply no way to survive without it. Modern technology has made information widely available and it is upto us to use it in the best way to fashion our career and future.

Industrial Automation

- Almost every manufacturing company is adopting industrial automation to survive in highly competitive market. So all these companies required trained engineers for design and maintained the automation process mean high requirement of automation Engineers all over the globe.

Trainings

- Factory automation and control – 40hrs
- Plant Automation – 40hrs
 - a) PLC
 - b) Distributed Control system
 - c) Data Acquisition System
- Field Penetration & Control System – 40hrs
- VLSI – 40hrs

Telecom

Telecom industry has shown a massive upsurge in the recent years. It's a most vibrant sector with highest growth rate. There is lot of scope in areas like RF/BTS / DT/Network Planning & Optimization, Network design & RF Transmission, Network Performance Service, Microwave Linking and BTS projects all over India. Telecom sector is very lucrative and corporates are looking for engineers who are willing to get professional level telecom exposure with jobs & achieve goals in defined timelines and quality levels.

Typical roles in Telecom are - I&C Engineer, BSS Engineer, Project Engineer, Telecom Engineer etc.

Trainings

- Field Survey/Mobile Phone Testing/ voice,data,video conferencing – 40hrs
- Radio Frequency Planning – 40hrs
- Optical fibre Communication, Network Planning and Link Budgeting – 40hrs
- Testing of wireless networks & Audit, Fibre Networks – 40hrs
- Network Management Systems – 40hrs
- Field Installation of Antenna and Base stations – 40hrs

Faculty

As with any academic program, faculty is one of the 'critical success factors' of the program and the students. They are hand-picked based on their industry experience and knowledge. As the objective of the programs is to make students industry ready, faculty members need to be hands-on sort of person and with knowledge of industry trends.

Some of our faculty members are –

- Mr. Saurabh Pal – 18+ years of international consulting experience with MNCs like PwC, IBM and others. He is now concentrating his efforts in the training domain to provide more industry ready candidates to the industry.
- Mr. Tapas Hazra – An IT industry veteran with over 21 years of development experience. He has a special aptitude for teaching and knowledge sharing.
- Ms Ishita – Having worked with MNCs for over 12 years, Ishita is also concentrating on teaching and skill development to ensure we have right candidates for the right industry at the right time.
- Mr. Bhowmic – A industry veteran having worked with Tata Power, DVC and other industries. He was also associated with National Power Training Institute, the nodal body for conducting all power related trainings.
